

COMMONWEALTH BUREAU OF CENSUS AND STATISTICS,  
Tasmania Branch,  
T. & G. Building,  
HOBART.

CIRCULAR:

Dear Sir,

SLAUGHTERING RETURNS, 1945.

As you are aware the meat position in Australia is receiving special attention in view of the war situation in the Pacific, and the fullest information is being sought by the Controller of Meat Supplies regarding slaughterings.

A form asking for particulars of slaughterings during 1944 is enclosed. The information is urgently required, and while regretting the necessity for another return, I should be grateful if you would complete the return to the best of your ability and let me have it back as early as possible, but in any case not later than 15th. January, 1945.

If your records do not show sheep and lambs, and cattle separately, will you please estimate the number of each type of animal killed.

Yours faithfully,

*H. J. Exley*  
(H. J. Exley),

DEPUTY COMMONWEALTH STATISTICIAN.
